

Reclosable Fasteners for Home and Office

Hidden strength for multiple openings and closings

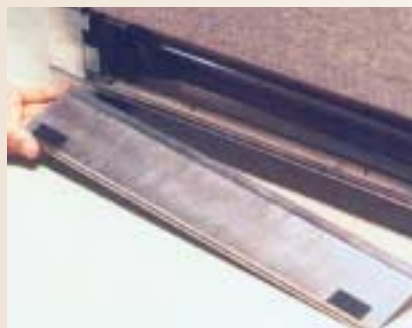

2

5

For designer window treatments, a painted wood fascia is attached to a painted metal valance with die-cut 3M™ Scotchmate™ Reclosable Hook and Loop Fasteners. Adhesive bonds on contact to wood and the metal. Fascias can be easily changed with room decor.

3

The quick snap action of 3M™ Dual Lock™ Reclosable Fastener provides convenient access to the wiring channels of moveable office partitions.

4

The hook side of 3M™ Scotchmate™ Reclosable Fastener is die cut and adhered to the back of a plastic mail holder. The hooks mesh directly with the fabric of the modular office wall. Simply pull apart to remove and rearrange.

6

3M™ Dual Lock Reclosable Fasteners hold the keyboard in place for the 3M™ Adjustable Keyboard Tray Oversized Mouse Platform with Wrist Rest.

3M Reclosable Fasteners hide beneath the surface. You can eliminate the installation work of screws, bolts and metal closures while keeping surfaces smooth and free of holes and protrusions. Select closure strengths, shapes, thicknesses, opaque or transparent and pressure sensitive adhesive backings to meet varying requirements. Adhesive-backings are available with a selection of characteristics such as high bonding strength, bonding to low surface energy plastics, low or high temperature resistance, UV resistance and more.

Select 3M™ Scotchmate™ Reclosable Fasteners for thousands of easy openings and closings or 3M™ Dual Lock™ Reclosable Fasteners for hundreds of closures with greater holding power.

3M™ Reclosable Fasteners for Home and Office

Removable plastic storage box for computer media attaches to the side of the CRT screen with strips of 3M™ Dual Lock™ Reclosable Fastener. 3M pressure sensitive adhesive backing bonds to many plastics on contact.

Decorative acoustic panels in an elevator are held invisibly in place with 3M™ Dual Lock™ Reclosable Fasteners.

For easy exchange of cleaning pads, 3M™ Scotchmate™ Reclosable Hook and Loop Fasteners fasten the pad to the inside of the mop base. The adhesive backing and hook and loop hold the pad in place and resist the shear stress of the cleaning and rubbing action.

PRODUCT USE: All statements, technical information and recommendations contained in this document are based upon tests or experience that 3M believes are reliable. However, many factors beyond 3M's control can affect the use and performance of a 3M product in a particular application, including the conditions under which the product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M product to determine whether it is fit for a particular purpose and suitable for the user's method of application. **WARRANTY AND LIMITED REMEDY:** 3M warrants that each 3M product meets the applicable specifications at the time 3M ships the product. **3M MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE.** User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's application. If the 3M product is defective, your exclusive remedy and 3M's and seller's sole obligation will be, at 3M's option, to repair or replace the product or refund the purchase price. **LIMITATION OF LIABILITY:** Except where prohibited by law, 3M and seller will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.
