

# Reclosable Fasteners for Transportation

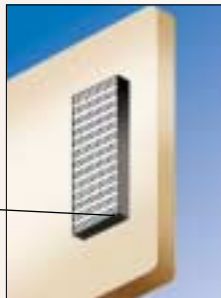

*Hidden strength for multiple openings and closings*

In and around seating, 3M™ Flame Resistant Scotchmate™ Reclosable Hook and Loop Fasteners secure a kickplate/access panel, hold seat cushions in place, and fasten carpeting to the floor.

For a clean look, 3M™ Scotchmate™ Reclosable Hook and Loop Fasteners attach truck tonneau covers. Adhesive backing resists temperature variations and moisture.

For holding an automatic toll transponder, one strip of 3M™ Dual Lock™ Reclosable Fastener is bonded to the windshield; the other to the back of the unit. High strength closure resists road bumps and vibration.

3M™ Reclosable Fasteners hide beneath the surface. You can eliminate the installation work and weight of screws, bolts and metal closures while keeping surfaces smooth and free of holes and protrusions. Select closure strengths, shapes, thicknesses and plain or pressure sensitive adhesive backings to meet varying requirements. Adhesive-backings are available with a selection of characteristics such as flame resistance, high temperature resistance and bonding to low surface energy plastics.

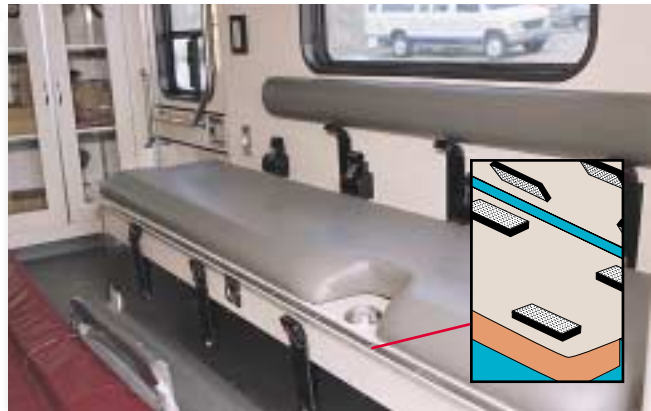

Select 3M™ Scotchmate™ Reclosable Fasteners for thousands of easy openings and closings or 3M™ Dual Lock™ Reclosable Fasteners for hundreds of closures with greater holding power.

## 3M™ Reclosable Fasteners for transportation

For personalized video displays in an aircraft. 3M™ Dual Lock™ Reclosable Fasteners secure a panel into place until removed for service or maintenance. A strip of 3M™ Scotchmate™ Reclosable Hook and Loop Fasteners on the inside of the panel (far right) provides a friction brake to hold the sliding access panel in place until moved up or down.

From bow to stern, 3M™ Reclosable Fasteners hold access panels, seat cushions, and more. Adhesive backing resists cold and wet conditions.

In healthcare and related industries, 3M™ Dual Lock™ Reclosable Fasteners are compatible with many cleaning practices. Cushions (shown), panels, components, and equipment can be removed and disinfected, then reattached with ease.

Now it's easier than ever to get connected – [www.3M.com/fasteners](http://www.3M.com/fasteners). Or 1-800-362-3550 for additional information or sales assistance.

**PRODUCT USE:** All statements, technical information and recommendations contained in this document are based upon tests or experience that 3M believes are reliable. However, many factors beyond 3M's control can affect the use and performance of a 3M product in a particular application, including the conditions under which the product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M product to determine whether it is fit for a particular purpose and suitable for the user's method of application. **WARRANTY AND LIMITED REMEDY:** 3M warrants that each 3M product meets the applicable specifications at the time 3M ships the product. **3M MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE.** User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's application. If the 3M product is defective, your exclusive remedy and 3M's and seller's sole obligation will be, at 3M's option, to repair or replace the product or refund the purchase price. **LIMITATION OF LIABILITY:** Except where prohibited by law, 3M and seller will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.
